The Four Pillars of Wealth

CapTrust Private Wealth provides multigenerational wealth planning solutions for affluent families across the four pillars of wealth.

1. Lifestyle Management

In order to fully serve our clients and their families, gaining a full understanding of their desired lifestyle is paramount to success. We do this by offering a variety of services specifically designed to engage families across generations.

2. Liability Management

Creating a financial plan for success requires managing both sides of a balance sheet. Ensuring your liabilities are structured in the most efficient way possible is a necessary piece of the puzzle needed to create a complete picture.

3. Asset Management

Once a survey of your unique financial landscape is complete and the destination is known, we will assist you with making prudent investment decisions. While growth of assets is important, the preservation of those assets is equally important to reaching your goals.

4. Risk Management

Now that a financial plan is in place and implemented, we place and implement, we comprehensively review items that could reduce the potential for your success. Developing a pre-emptive plan to mitigate potential risk will further protect your wealth and the well-being of your family.

We've got your six!

Sixswatch Brand Story

Our Heritage

The name Sixswatch pays homage to our commitment and dedication to our customers' experience (CX). The saying "got your six" dates back to World War I when fighter pilots would use "six o'clock" to indicate the rear of the aircraft. The six o'clock position is a highly vulnerable blind spot for attacks which created a need for partnership and comradery to ensure safety in battle. When someone says they're "got your six," it means they have your back through good and bad. They're protecting you and watching out for your interests as if they were their own. It affirms loyalty and commitment – and that's the Sixswatch way.

Think Pink. Think ProCare.™

ProCare, a proud supporter of breast cancer awareness, is donating a portion of our sales to National Breast Cancer Foundation during the month of October.

Our mission includes increasing awareness through education, providing diagnostic breast care services for those in need, and providing nurturing support services.

TAMPA, FLORIDA — OCTOBER 7, 2018. ProCare, a national Transportation and Language Services company headquartered in Tampa, is pleased to announce our continuing drive to making lives better through unparalleled support. We are pleased to extend our support to the National Breast Cancer Foundation (NBCF) during the month of October.

We understand with increased healthcare costs and a rapidly increasing percentage of uninsured women, many simply cannot afford the cost of screening tests. These women are at a significantly higher risk of dying from breast cancer if later diagnosed. For that very reason, we are dedicated to donating a portion of our sales to NBCF.

“The National Cancer Institute recommends women age 40 and older receive annual mammogram screenings to provide early detection of breast cancer.”
